

mobiletour[®]

Use your iPhone, Smartphone,
multimedia phone or mp3-Player :

You can use our audiovisual guided tours with your iPhone, Smartphone, multimedia mobile or mp3 player. If you click on the menu item "Shop" on www.handytour.com you can download the corresponding data files.

The **mobiletour** for the mp3 player is made of audio files in mp3 format only.

The guided tour programs have a little city map as well as image and audio information, and a list of the places of interest. The city map serves as orientation. You will need the list to choose each of the stations, if your GPS doesn't select it automatically. Click on "?" for a short instruction manual.

How to do: First select a station as desired. For this purpose you tap on the desired station of the points of interest. You will then see a picture of the station and by touching the piktoramm - button "ear" you have access to the audio-visual information.

Download and installation: The files are an ZIP data file for Windows systems. After you have downloaded the data file unpack it by opening the data file. After the unpacking you can copy the folder "mobiletour" on your Smartphone etc. and by starting "mobiletour.htm" or "start.htm" on the folder "mobiletour" you can use the audiovisual guided tour for Aachen. The installation of the mobiletour App would be the same as usual for Apple Apps.

The technical conditions needed to use the guided tours are (they depend on the kind of program/data files):

- Memory capacity of and till 200MB
- Capability to play MP3 file (mp3-player)
- Capability to play WMW files (PDA, PC)
- Capability to play 3GP files (mobile phone)
- Capability to play MP4 files (smartphone, iPhone, iPod)
- Browser capable of Html3.2
- A browser capable of Xhtml1.0
- Capability to display Gif and Jpg data files
- Optional: GPS mouse
- Acceptance of cookies

handytour[®]

Use your mobile phone:

All you need is your mobile phone, a PIN and our free brochure of the respective city, say for example Aachen - 'Experience Aachen! handytour with city guide'!

The brochure will provide you with brief instructions on how to use our service, as well as the handytour phone number and for your convenience a city guide with photographs showing all the tourist attractions.

(The guides through our VoiceServer are without pictures!)

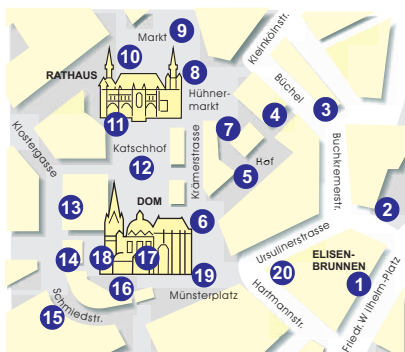

You can download our free brochures using the menu point 'audiovisual city guide' on www.handytour.com. For each city listed under this menu point an audiovisual handytour and the free

You can acquire the PIN number for using the handytour through our Voice-Server, if you click the item "Shop" on the menu on www.handytour.com.

Just call! You can listen to our audio city guides using any fixed line or mobile phone.

How do you use handytour? Dial the handytour number **02407 - 573532**. Then select the language, for English enter "2". If you will be ask enter your PIN. After that you will be able to select a city. At the end you can enter your choice of tourist attraction. That's all. Listen and enjoy our interesting explanations of your selection of tourist attractions. You can find the access number for the handytour of a city on the brochure of the respective city.

TIP: After each audio tour has been repeated you can dial into the next station by pressing the # key. Alternatively, you can end the connection and use the recall function of your mobile after you have reached the next station. If you have activated - "send the own number", you will need to enter your PIN

Tour guide 'Aachener Cathedral':

- dial the access number 02407 - 573532
- select the language ("2" for English)
- after the request enter your PIN number
- select the city you wish ("1" for Aachen)

You will be asked for your choice of tourist attraction!

- if you want to select attraction 17 'Aachener Cathedral'
- Enter "17" by pressing the button "1" and "7" on your phone

Geolocation

Use your iPhone, Smartphone, multimedia phone or mp3-Player :

Presently the **mobiletour** geolocation-mod works for Aachen and Hannover only. Implementation of GPS-mod in other cities is in preparation.

With our geolocation-mod it is even easier to obtain the adequate audiovisual guide to a POI. The GPS-data of every station have been worked into **mobiletour**.

As soon as you find yourself close to one of the stations, the matching information will be offered to you.

To benefit of this service your mobile device needs to have a GPS-mouse and your browser needs to fit for HTML 5.0.

That's how it works:

Choose the city you require. Then tap on the "button with the map" to have access the appropriate city map.

You can now visit the city. Whenever you get close to one of the implemented POI, the respective information will automatically be transmitted to your mobile device.

You can now see a picture of the POI you're close to. By tapping on the "button with the ear"

you will get the requested audiovisual information.

City - Rally

Use your iPhone, Smartphone,
multimedia phone or mp3-Player :

Kids and teens learn effortlessly with our city-rally!
Presently the rally linked to our audiovisual guided tours exists for Aachen and Hannover only. Rallies for other cities are in preparation.

This rally is designed for kids and teens. The questions are posed with a sense of humour and easily answered. There is a multiple-choice question with three possible answers to each station. To choose an answer you tap on the respective letter for every station there is only one correct answer; this answer can be heard in the audiovisual tour for the particular station.

If you have solved every question correctly, the solution will be a word referring to the city you're visiting.

If you want to use **mobiletour** with the rally, you need to activate the acceptance of cookies in the browser of your mobile device.

How it works:

First select a station as desired. For this purpose you tap on the desired station of the points of interest. You will then see a picture of the station as well as the multiple-choice question (see for example "Eisenbrunnen" in "Aachen").

By touching the piktoramm - button "ear" you have access to the audio-visual information.

After listening to this information, the question will be answered easily.

Now tap on the letter beside the answer you choose. This letter will automatically be listed on a screen page you reach by touching the piktoqramm - button "cup"

You're not sure if your solution is correct? Send your answer to rallye@handytours.com, RE: Rally Aachen
